A woman with brown hair and blue eyes, wearing a white hoodie, is speaking directly to the camera. She is positioned in front of a window with dark horizontal blinds. A black circular object, possibly a camera lens or a light fixture, is visible on the wall behind her to the right. The image has a slightly grainy, video-like quality.

I've been in denial about Lahaina. Having lived on Maui for 25 years or more, I've experienced fires that closed the roads and also high wind "dry hurricane" events. So I was buying and even defending the official narrative for 36 hours. But the aftermath images tell a completely different story. The clincher for me was seeing plastic trash bins unscathed next to completely burned out cars with their windows gone.

Please share this around. I'm still in shock that these ghouls would destroy such a beautiful, historic town. But I'm sure Black Rock will see that their insurance companies deny claims and buy the place up. This video is getting shadow banned on other channels.

I just got out of a meeting where I was informed by someone in the Mayors office about developments that are being kept from the public. I am not a conspiracy theorist and I don't want to make trouble but here's what I've heard.

The amount of fatalities is expected to be more than 500 but less than 1000.

Many of the fatalities will be children who were at home because they canceled school. Parents worked and were not there to evacuate the children. Kids had no idea they needed to leave and by the time they noticed their homes or apartments were on fire, it was too late.

The government is worried about how we will react when we learn that the fire department left the fire earlier in the day and claimed it was 100% contained knowing that the winds were expected to be 70mph by the afternoon. This is against all fire control protocols. The fire department should not have left the original fire unattended. They are scared that the public calls for accountability will be more than they can control and protests and riots will occur.

They plan to lock down Lahaina for several months. It will take months to clean up the hazardous and environmental contamination. They won't have enough housing for All the displaced.

There were 2,000 unaccounted for this morning. They have a list where they are trying to keep track. They found 700 today. But there are still 1300 missing.

They are very worried that the community is going to freak out when they find out how not a single fire truck responded to the fires. The emergency sirens were not activated (hurricane sirens) and loss of life could have been kept down by better emergency management which utterly failed.

I'm not trying to make waves or stir up problems but I was so angry

I'm not trying to make waves or stir up problems but I was so angry and sad when I found out how many children are dead that I knew I had to post this and let everyone know what I have learned.

It's time for our officials to stand up, tell the truth, and face the music. They failed Lāhainā guys. Our government is full of incompetent nepotism. The fire chief is the son of the former fire chief. We need to hold officials accountable for the mistakes they
